

MSI-4260 PORT-A-WEIGH SPECIFICATIONS

The MSI-4260 crane scale is an ideal unit for heavy-duty applications. For heavy-duty applications requiring remote radio telemetry display and/or computer interface, MSI recommends specifying MSI-6260 Trans-Weigh.

CR= Crosby or equivalent.

* These dimensions also apply to 50/70/100,000 pound models with hook and shackles.

** Resolution subject to change for NIST and OIML approved units.

*** Ultimate overload - 490% of kg capacity.

**** Ultimate overload - 475% of lb capacity/430% of kg capacity.

***** Ultimate overload - 450% of kg capacity.

Specifications subject to change without notice.

Note: Unit comes standard with top shackle & bottom swivel hook.

CONSULT FACTORY FOR HIGHER CAPACITIES. SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

STANDARD PRODUCT SPECIFICATIONS

Accuracy: Plus or minus 0.1% of applied load
Display: 5 digit, 1.0 in. (25 mm) high numeric LCD with photocell activated backlight and annunciator bars for net weight and low battery
Power: 12 Volt lead acid rechargeable battery (charger included)
Operating Time: LCD: 50 hours, LED: 25 hours between charges
Operating Temperature Range: 14° to +140° F (-10° to +60°C)
Enclosure: NEMA IV, anodized cast aluminum
Safe Overload: 200% of rated capacity
Ultimate Overload: 500% of rated capacity (except as noted)
Hook: Crosby thrust bearing swivel hook or equivalent

FUNCTION SWITCHES

ON/OFF: Turns unit ON or OFF and activates 5 minute automatic shut-off
LOCK: Overrides automatic shut-off and allows continuous operation until manually switched off
ZERO: Zeros applied load up to 100% of capacity (limited range with NIST or OIML option)
TARE SET: Tares applied load and displays weight in Net mode (up to 100% of scale capacity)
TARE CLEAR: Clears entered Tare Set value and returns the scale to Gross operating mode
NET/GROSS: Switches unit between NET and GROSS
POUNDS/KILOGRAMS: Internally selectable

OPTIONS AND ACCESSORIES

- NIST and OIML approved for use in commercial trade (contact factory for U.S. and International specs Class III & IIIL)
- Presettable Tare control
- Remote ON/ZERO Controller (not available on NIST or OIML approved units)
- Remote load cell input and summing
- Marine bulkhead (recommended for outdoor applications)
- Substitute shackle for bottom swivel hook (possible headroom loss reduction)
- Oversized top lifting eye or shackle
- AC/DC input power 115/230 VAC and 12 - 250 VDC (specify required voltage)
- EMI shield (recommended for applications above magnet)
- Heat shield for high temperature applications (contact factory for operating specifications)
- Factory Mutual Approved (intrinsically safe for use in hazardous environments): Class I, II, III
 DIV. 1, Group C, D, E, F, & G
 DIV. 2, Group A, B, C, D, & G
- LED digital display (0.8 inch high)
- 230 VAC battery charger
